

October, 2018

Dear Praying Friends,

Another list is being sent to those of you who pray one for another. Thank you again this year for your consistency with the prayer list. We have been in several churches where the church or churches to be prayed for that week is announced and/or put in the bulletin. I count it a privilege to be able to do this and really appreciate the encouraging responses to the idea of churches praying for one another. Since there are now 94 churches and missionaries listed here, you should have 93 churches praying for your church at least once a year. Numbers don't really tell the whole story regarding the things of God as many have discovered, but having more folks mention you to the Lord should bring a greater blessing than having fewer doing the same. That way the "fervent and effective" part of praying may appear more often

About twenty years ago, would you have believed that we should still be laboring in the field for the Lord and not seated literally with the Lord in Heaven? But here we are remaining in the battle for the glory of God and the souls of men. Since we seem to actually be fewer in number, (whether that is so or not it does seem to be) we surely need to be more ardent in our prayer for one another and surely, we need to bring our requests to the Throne with more urgency than ever. Those on the list give the impression of needing prayer, hence their presence below. If anyone asks for prayer in order to be closer to the work and things of God, (which pretty well includes all of those still striving against the world the flesh and the Devil) what better opportunity than to consistently hold one another up weekly whether we know one another or not.

America may have been given a window of opportunity in delaying the onslaught of liberalism even a small amount. While this list is not a political opinion piece but simply a request for prayer, the present climate in Washington does seem to have shifted a bit towards good sense as most of us might understand it. God seems to have granted a bit of a reprieve on that part of the landscape but in any case, whoever might be in power, we can still pray since that is access to the only real power in the universe. Thank the Lord that we do have that advantage and here is another avenue to practice the wonderful opportunity of bringing God into our midst in power and affect.

As in previous years, should you have a particular concern or situation to be prayed for during the week your church is listed, please contact me about it and I may be able to contact some churches and let them know. I do receive texts as long as there is identification of some sort. And email works since living on the road requires attention to it for practical purposes.

By His Grace and for His Glory,

Thomas Bard
